

Make Slot Animals

Materials you will need: cardboard, markers or colored pencils, scissors, and anything else you want to use to decorate your animal.

1. Pick an animal you wish to do. Find your own or do it like the pattern shows.
2. Draw or trace your animal on the cardboard, then cut it out.
3. Now cut on the line (shown in pattern) to make the slots in the animals.
4. Color all the pieces.
5. Put the head in the head slot.
6. Put both sets of legs in the leg slots.
7. If you have a tail, put the tail in the tail slot.
8. Have fun playing with your new, home made slot animal.
