POLICIES

CAMP RULES AND EXPECTATIONS

The Brandywine Zoo is committed to ensuring that all campers who attend Zoo Camp are provided a fun atmosphere where they can learn free of harassment or intimidation.

- You and your camper are urged to inform any member of the Zoo staff of any conduct that is offensive or in contradiction to the Zoo’s commitment to a harassment-free environment.
- All participants are expected to show respect for animals, teachers, fellow campers, themselves, Zoo staff, guests, and the facilities.
- Disruptive or dangerous behaviors and physical aggression are not acceptable.

Children who are extremely disruptive or exhibit unsafe behavior will face consequences as outlined in our Zoo Camp Disciplinary Policy below and repeat offenses may result in the expulsion from camp.

- Camp Rules will be reviewed with all campers on their first morning at camp. Please also discuss Zoo Camp Rules and Expectations with your camper prior to the start of camp.

ZOO CAMP DISCIPLINARY POLICY

The Brandywine Zoo Camp rules of behavior/conduct are reviewed with campers during each camp day.

- Disrespectful behavior, foul or hurtful language, and violence toward camp staff, fellow campers and animals will not be tolerated.
- Bullying of any type, whether physical or emotional, will not be tolerated.

If it becomes necessary to take disciplinary action against a camper, the steps following steps may occur:

**1st incident:** verbal warning and an explanation as to why their behavior is inappropriate.

**2nd incident:** Staff will determine an appropriate consequence for the camper’s actions (examples may include a time out or exclusion from participating in an activity). The camper’s parents/guardians will be notified of their behavior when they arrive to pick the child up.

**3rd incident:** The child will be excused from camp without a tuition refund.

The Staff of the Brandywine Zoo, Delaware State Parks, and the Delaware Zoological Society reserve the right to bar any child from camps following a first incident in cases of serious behavior problems.

**Immediate Dismissal** may occur for, but are not limited to, situations involving violence (or threats of violence) of any kind, stealing, or possession of drugs/alcohol/weapons.

- In cases of Immediate Dismissal parents, guardians, emergency contacts and anyone approved for pick-up will be contacted to immediately pick-up the camper.

MEDICATIONS

We are able to store required medications in a secure place. Camp staff is not permitted to administer medication to your child. Zoo Campers may self-administer prescription medication including asthma inhalers and Epi-pens with parent/guardian permission and doctor’s note. Campers may self-administer sunscreen and/or insect repellent without doctor’s order. Please make sure your child knows the correct dosage and how to use or apply the medication, as employees are prohibited from removing medication from its container.

Parents or guardians sending medications to camp should complete a camper medication card for each medication (pages 7 & 8 of the Registration Packet) and release the Brandywine Zoo, State of Delaware, the Delaware Zoological Society, and all agents and employees from and against any and all claims resulting from your child bringing medicine to camp.

**All medications must be given to camp staff immediately upon arrival** (no medications should be stored in lunchboxes or backpacks).

- All medications with original labels and completed medication cards will be stored in a secure location.
- Inhalers/Epi-pens with the camper’s name on it will be kept with their camp counselor at all times.
- Campers need to be able and willing to self-administer all medication.
POlicies Cont.

Camper Illnesses

The Brandywine Zoo reserves the right to refuse entrance to summer camp or send a camper home for any medical issue. No reimbursements will be provided for early dismissals.

In the event a camper becomes ill, camp staff will notify the parent/guardian listed on the Registration Packet followed by those listed as emergency contacts, if parents or guardians cannot be reached.

For the well-being of your camper and the safety of other campers in our program, if your child(ren) shows signs or symptoms of issues including, but not limited to, lice, severe coughing or complaints of pain, pink eye, sore throat, vomiting, you will be asked to pick up your child immediately.

Animal Contact Policy

Campers will have opportunities for up-close encounters with Education Ambassador Animals each day. Our Education Animals are not typically on public display and are brought out only for educational programs and special presentations. Campers will get an up-close experience during these presentations.

While most education animals are able to be touched in a controlled setting, not all animals may be touchable based upon the species, number of campers, and camper behavior.

Campers are expected to remain calm and respectful during animal presentations.

If at any time a Camp Counselor feels his/her group is not following the Zoo Camp rules and expectations, these animal encounters may be ended and further opportunities restricted.

For the safety of all, direct contact with exhibit animals is limited. This is due to safety, limited space, and the availability of animal care staff and the sensitive nature of many of our endangered species. Campers who violate the Animal Contact Policy will be disciplined as outlined in our Camp Disciplinary Policy. The Summer Camp Staff of Delaware State Parks and the Delaware Zoological Society reserve the right to bar any child from camps following a first incident in cases of serious problems.

Campers with differing abilities and specific needs

The Brandywine Zoo Camp strives to meet the needs of all children. While we are a traditional camp (not specialized for specific exceptionalities), we welcome all children and do our very best to accommodate every child. In order for us to be able to help your child have an enjoyable experience at camp, we ask that you notify us of your child’s differing abilities and specific needs prior to your child’s first day of camp via the Camper Profile or Medical Information page (pages 6-7 of the Registration Packet). This may include information on allergies, accessibility concerns, behavioral, psychological or emotional conditions, or other differing abilities and needs.

Any pertinent information you provide will be discreetly shared with the appropriate Zoo Camp Staff and Volunteers unless you request otherwise. Details will not be shared with other camp participants. Individualized Education Plans (IEPs) or Behavior Plans used with your child at school can often be helpful. You may also want to include “hints” or “tips” for relating to your camper in the Camper Profile. For example: their interests, what they are most comfortable with, or talking points to better relate with them.

The Brandywine Zoo provides a caring staff knowledgeable in their subjects and interested in working with children; however we are not able to provide staff trained in specialized medical, physical or behavioral needs, nor does it have additional staff for one-on-one support or care. While we offer our camps to as wide a range of children as possible, it is not possible for us to offer 1:1 care. If your child requires an aide at school or a paraprofessional, he/she may not attend camp without a pre-authorized aide or worker.

Our camp takes place in a highly stimulating environment both in the classroom and on zoo grounds. Children are expected to stay with a group, care for their own basic needs and participate in camp activities with children of the same age group. We host an active, outdoor camp and thus our program might not be suitable for every camper. However, the Brandywine Zoo Camp will make every effort to meet the needs of all campers.

Please contact us with any questions, concerns or to provide additional information to help us meet your child’s individual needs.
