Materials:
- Silicone ice cube trays (included)
- Crayons, broken and small ones work perfectly!
- Metal baking sheet and oven

How To:
- Start by removing all the paper wrapping from your crayons
- Fill your silicone ice cube tray with broken pieces of crayon (you can put all the same colors in each mold or mix colors to make rainbow crayons!)
- With help from an adult, place your silicone tray on top of a metal baking sheet and place both in an oven preheated to 250°F. Bake for 10-20 minutes (the bake time may change depending on how full your molds are)
WRITE AGAIN: CRAYON RECYCLING

- Ask an adult to take your crayons out of the oven and let them cool.
- Once they are cooled, pop them out of the mold and enjoy your new crayons!

This program is supported, in part, by a grant from the Delaware Division of the Arts, a state agency, in partnership with the National Endowment for the Arts. The Division promotes Delaware arts events on DelawareScene.com.
