

# WILD ART KIT GIVEAWAY

## RAIN PAINTING

### Materials:

- Tempura paint (included) or chalk
- Watercolor paper (included)
- Rain!

### How To:

- Sprinkle the dry, powdered tempura paint onto your paper. A light sprinkle works best because larger piles of paint do not spread out well.

- Place your paper outside and wait for the rain! If there's no rain, you could use a spray bottle filled with water or flick pinches of water onto the paper.
